

JHA MEETING OUTLINE

1. Training Points

A. Introduction

- JHA is a process to identify existing or possible hazards of a job

B. Identifying Hazards

- Break the job down into steps
- Use a checklist

C. Protection Against Hazards

- Determine ways to eliminate hazards

D. Safety Procedures

- Keep an eye out for hazards
- Ask, what can go wrong here?
- Does anything not look, smell, or “feel” right?
- Are emergency procedures in place?

2. Practical Exercises and Discussion Points

3. Wrap-Up
